Varian holds public meetings twice a year to update the community on the environmental cleanup activities that have occurred during the previous reporting period. The May public meeting will provide an update on the installation progress and operation of the following treatment systems:

- ❖ Building 3 Thermal Treatment System
- ❖ PSL-10 Subgrade Biogeochemical Reactor
- ❖ Building 5 Bioremediation
- ❖ Bedrock In Situ Chemical Reduction

In support of these updates, a Phase IV status report dated February 27, 2026, is available at the Beverly Public Library reference desk, or on the Massachusetts Department of Environmental Protection (MassDEP) website.
